Corrective action in progress

3.2	Due: 10 Dec 2026

Current progress plan

- Afficher horaires d'ouverture aux clients
- Faire controler l'extincteur et afficher la date de prochain controle

Verified progress

- 5 Nov 2026 · Initial on-site audit · 88/100

How to read this page

- NUVIO checked each criterion on the date shown, on site, by video call or on evidence. « To improve » marks a point of progress, not a failure. Levels cannot be bought: they depend only on verified evidence.
- Private NUVIO label; it does not replace a regulatory certification. The valid status is the one shown online.
- NUVIO checks organisation, equipment and transparency criteria on a given date; the garage alone is responsible for the work it does.
- Method v1
